

PUBLIC-PRIVATE-PARTNERSHIP CONCESSIONING WORKSHOP

COURSE CODE: PRM 9006

COURSE OVERVIEW

There is increasing interest in the adoption of the Public-Private-Partnership (PPP) structures for finance provision, implementation and maintenance of major public-works projects. This program analyses the successes and failures in case studies around the world and guides delegates through best practices that can be applied when considering, commissioning or managing PPP projects.

BENEFITS OF ATTENDING

At the end of the course, you will:

- ✓ Understand and be able to apply the core principles of PPP to your projects
- ✓ Plan and implement strategies that take into account public and private sector perspectives
- ✓ Be familiar with the regulatory issues involved in PPP transactions
- ✓ Be able to analyse and execute PPP projects with better efficiency

COURSE OUTLINE

- Dynamics of PPP in global economic development
- The roles of private equity companies
- PPP principles and constraints
- What makes PPPs go right and wrong?
- Globalised PPP Formats and best practices
- Financing PPPs
- Risk factors in PPP transactions
- Cost and valuation issues under PPP structures
- The role of host communities
- Planning and implementing PPPs
- Regulatory issues in PPP transactions

WHO SHOULD ENROL?

Project Managers, directors, senior executives and manager from public sector organisations, institutions providing large-scale project financing, and private companies working on/considering PPP projects
